

**CERSAIE 2021- BOLOGNA
IL GIARDINO DI CARTA
HALL 18 -STAND 2**

The basic idea behind the **CaberlonCaroppi** for Archicontract fair stand is the reinterpretation of the “Spa & Outdoor” space in a dreamlike way. Chasing the desire for calm and well-being, the planned scenario takes place in an Orangery suspended between dream and Design. A space away from chaos, finely furnished, where you can see giant plants and animals through the stained glass windows, as they are straight out of the pages of a fairytale or a painting. Talenti's furnishings and Tooy's lighting have contributed to create this vision possible, helping us out with the realization of all this: an high-quality and comfortable area from which you would never ever want to leave. Even if a very small door over there on the wall is inviting you towards itself to “**Il Giardino di Carta**”... Are you willing to accept the challenge?
