acodis

Intelligent Document Processing (IDP) – Convert Any Document Into Strutured Data in Seconds

If you are looking for the best data extraction solution for any document, then you should try Acodis.
Acodis has been dedicated to business document automation since its inception in 2016 and, powered by machine learning, enables automated processing of any document within seconds. This replaces manual document transfers and allows the extracted data to be exported in a desired format. Every year, more than 40 customers in six countries process more than 1.3 million

INTELLIGENT DOCUMENT RPOCESSING (IDP) IN THREE STEPS:

CAPTURE
Classification, Extraction & Validation
Get structured data from any document with machine learning – in seconds.

AUTOMATE
Document Processing Workflows
Build and combine document processing workflows with a few click – no coding required.

SCALE
Share and Deploy Workflows
Automate at scale by sharing structured data within your organization and make faster business decisions.

Testimonial

«We have been able to free our operational staff from monotonous, repetitive, unmotivating manual data entry activities, so that they can focus on higher value and more important tasks in their core competency. »

Alexander Quercher
Business Process Developer
Rhenus Logistics
