PERSONALIZED AVATAR
You can't fix what you can't see

MediKarma created the first health avatar to give you a real-time snap shot of your health and potential risks

REAL-TIME HEALTH SCORE
You can't improve what you don't measure

that's why our AI engine correlates thousands of live and historical health records to give you an objective assessment of your health and it's behavior over time.

AI HEALTH ASSISTANT
You can't change without action

that is why we created Jill, your personalized Artificial Intelligence Health Assistant. Jill will create a step-by-step wellness journey based on your medical history and habits to help you improve your health score and enjoy a healthier life.

MEDIKARMA's AI technology is closing the gap between health and healthcare

Thousands of data points that live on hundreds of databases entirely out of reach make each person's unique health fingerprint.

WAVE connects the dots and personalizes visualization tools to bring you closer to your medical data so you can assess and act on your health in real time.

ARTIFICIAL INTELLIGENCE

W.A.V.E
Wellness AI-Visualization Engine
Inspired by the perfect human algorithm, first visualized in Leonardo da Vinci's Vitruvian man,

MediKarma has consolidated centuries of medical practice and the latest healthcare protocols to create a first-of-a-kind heath visualization algorithm (WAVE).

WAVE evaluates a person's wellness condition in real time and represents it in the form of:

- A digital avatar
- A holistic wellness score
- An organ-based health risks,
- A personalized step-by-step wellness journey.
